METAL INDUSTRIES, INC.

ABOUT METAL INDUSTRIES, INC.

Metal Industries, Inc. originated in the 1940's when Vincent D. Zito started the Metropolitan Tool and Machine Company in Metal Industries' current location. Metropolitan successfully manufactured parts for a variety of industries including finished products utilized by U.S. troops fighting in World War II. In 1965, Vincent A. Zito incorporated as Metal Industries, Inc. and continued providing machining services to the local businesses and beyond.

Since that time, Metal Industries has evolved into a fully equipped facility. Now in the capable hands of Vincent M. Zito, Metal Industries, Inc. offers an expanse of services of various sizes, scales, and applications including OEM, spare parts, repairs and hard-to-find components. With decades of hands-on experience our team takes pride in coming up with creative solutions to meet the exact needs of our customers.

O-rings and Accessories

Metal Industries, Inc. supplies standard and non-standard size O-rings. We also supply a wide range of top-of-the-line nuts, bolts, tools, and accessories for all your job needs.

Gaskets

What is the best gasket material for the project you are working on? Email us today for help with this process.

Clamps

Choose from our selection of quick release clamps, including clamps for hoses, tubes, duct hoses, shaft collars and more. We can help you pick the best clamp and tool for your application.

- Everbilt Hose Clamp
- Quick-Release
- Ideal-Tridon Clamps
- T-Bolts
- Oetiker Hose Clamps
- Worm gears
- Clamp-Preformed Exhaust
- Clamp loop

Duct Hoses

Metal Industries, Inc. carries a wide variety of flexible hoses that are self-extinguishing, moisture, UV, and oil resistant. The hoses are highly compressible which helps save space when transporting. They are suitable for enclosed space fume-removal, welding, general removal, and solvent ventilation applications.

- Metal Hose
- Flexible Ducting
- PTFE Hose
- Silicone Hose
- Hydraulic Hose & Fittings
- Pipe & Tube Fittings
- Industrial Hose

Top Brand Motors

Finding the best motor for your application doesn't need to be a challenge. Contact us today!

- Weg
- Ironhorse
- Baldor
- Siemens
- Magnetek
- Servo
- Lesson
- Dayton

Sealants & Fluids

Metal Industries, Inc. offers a wide assortment of industrial sealants, fluids and chemicals.

- Epoxy Thermals
- Urethane
- Butyl Rubber
- Expanding Foam Latex
- Polysulfide
- Wood Boiler Chemical
- Polyurethane
- Glycerin

Paints, Adhesives and Sprays

Metal Industries, Inc. supplies a wide variety of paint and adhesives. Call or email us today for the product you are looking for.

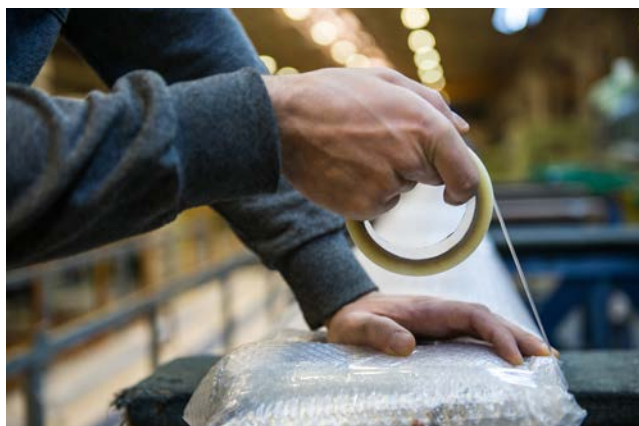

- 3M Multipurpose Adhesive
- Cross Check
- Krylon
- Rust-Oleum
- Sherwin Williams
- DGF-123 Dry Graphite Film

Tape

Let us help you determine which tape works best for the specific requirements that your component demands.

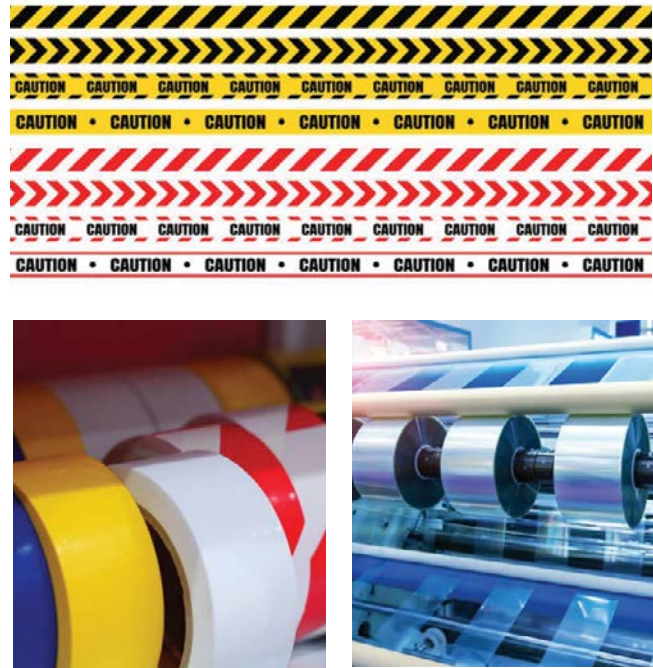

- Green Poly
- Duct Tape
- Blue Poly
- Flexo Tape
- Hi-Temp Crepe
- Glass Cloth
- Masking Tape
- Industrial Tape

Safety & Warning Tape

Employee safety is critical, and your tape needs can change quickly. Tapes provide flexibility and safety. Let us know what we can do to help make your surroundings secure. We carry a wide range of anti-slip, reflective, waterproof, and warning tape.

- 3M
- DOT-C2
- Trazon
- ADHES
- Bullshark
- VicMore
- Bertech
- LifeGrip

Filters & Filter Housings

We are committed to providing filtration products to satisfy your needs. Our industrial and home filters help reduce contaminants. Protect your air quality by shopping from our wide selection of filters and breathe easy as they help reduce contaminants like pollen, dust, pet dander, and airborne bacteria.

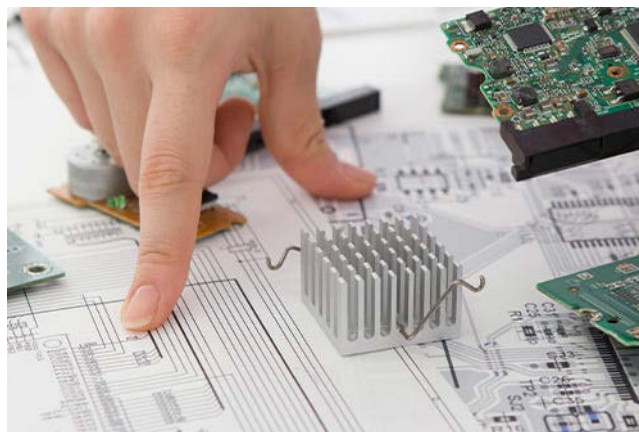

- Industrial
- Waterdrop ACF
- Washable
- Jumbo Cartridge
- Fiberglass
- Polyester

Power Components

If you are having difficulty finding a replacement circuit board, consult our sales team to have one fabricated for you, even if it's obsolete! We have highly knowledgeable and trained engineers to replicate your circuit board or power component.

- Single-Sided PCBS
- Double-Sided PCBS
- Multilayer PCBS
- Rigid PCBS
- Flex PCBS
- Rigid – Flex PCBS
- Breadboard
- Stripboard

Multimeters, Test Equipment, Controls & Hard Drives

Metal Industries, Inc. provides new and rebuilt testing equipment with a wide range of multimeters, test equipment, hard drives, controls, and service motor drives. We also supply diagnostics and repairs.

- Industrial RMS
- Fluke
- Hard Drives
- Seagate
- Extech
- Flir
- Toshiba
- Keysight

Breakers, Switches & Fuses

Our goal is to make purchasing fuses, breakers, switches, and related products easier, more efficient, and affordable.

- Close Circuit
- Ferraz Shawmut
- Circuit Breakers
- Throw Switch
- Series Circuit
- Push Button
- Bussman
- Edison
- Toggle
- Float

Valves, Flowmeters, Actuators & Connectors

We have a wide variety of valves, actuators and flow meters available.

- ASCO
- Differential Pressure
- Tyco
- Positive Displacement
- Emerson
- Open Channel
- Mass

Mechanical Spare

We can supply industrial spare products efficiently to meet our client's customers' project execution ramp-up.

RANGE:

- Hydraulics
- Fittings & Accessories

HARDWARE:

- Bolts, Nuts, Washers, Screws
- Tools
- Blowers
- Furnace Equipment & Spare Valves

PUMPS

- Vacuum Pumps: Small, Medium and Large Dry Pumps
- Small, Medium and Large Oil Sealed Pumps Dry Pumps for Hazardous Locations
- Chemical Dry Pumps
- Turbo Molecular Pumps
- Oil Vapor Diffusion Pumps
- Liquid Ring Pumps for Power Industry
- UHV Pumps
- Vacuum Instruments
- Vacuum Fittings and Valves
- Lubricants and Sealants
- Exhaust Gas Management
- Valves & Fittings

Manufacturing Capabilities

Metal Industries, Inc. is equipped with CNC and manual lathes (up to 36-inch diameter, 17 feet long), 4-axis CNC and manual milling machines, and surface, OD and ID grinders. We offer fabrication services, including weldments, custom piping, manifolds, and structural components. Our welding services can meet all your needs for welding carbon steel, aluminum, stainless steel, and cast iron.

OUR CAPABILITIES INCLUDE:

- Engineering and design
- Component fabrication
- Machine component repair
- Reverse engineered replicated parts.
- Short- and long-run manufacturing
- Welding includes MIG, TIG, stick, brazing and silver soldering.
- Two-plane soft suspension dynamic balancing
- Oxy-acetylene powder and twin arc metallized coatings
- Rokide and plasma arc ceramic coatings
- Emergency Services are offered during our daily business hours and after hours to minimize our customers' downtime.
